1. Introduction

1.1 Safety Information

DANGER

Danger indicates a high-risk hazard that, if not avoided, may result in death or serious injury.

WARNING

Warning is used to identify safety instructions with a medium risk level that, if ignored, may result in serious injury or even death.

CAUTION

A caution indicates a low-risk hazard that, if not avoided, may result in minor or moderate injury.

1.2 Storage Notice

Make sure to carefully read the manual before using the product and follow all safety guidelines closely. This will help you prevent risks such as short circuits, electric shocks, fire, or explosions. Ignoring these safety instructions may result in serious injury or even fatal consequences. Keep the manual and safety instructions for future reference!

2. Product Description

2.1 Product Overview

This product is a durable and functional shelf, specifically designed for use in server and network cabinets. The shelf provides a stable surface for placing equipment such as networking devices, servers, UPS systems, and accessories. Additionally, it is ideal for organizing loose components and improving both accessibility and tidiness within the cabinet.

2.2 Intended Use

This product is intended solely for use as described in section 3.1. Any other use is prohibited. The shelf is suitable for installation in dry indoor environments and must be protected from contact with moisture or other liquids.

To ensure safety and compliance with CE regulations, modifying or altering the product is not allowed. Failure to adhere to these guidelines may result in accidents, injury, or property damage. Improper use may also lead to instability, damage to the server cabinet, or other safety risks.

2.3 Scope of Delivery

Shelf with Mounting Materials

2.4 Technical Data and Specifications

NUMBER	NAME
Product Type	Shelf
Compatibility	Server Cabinets
Material	Steel
Finish	Black, Powder-Coated
Suitable for	Server and Network Cabinets
Country of Origin	China

3. Safety Instructions

- Use the shelf exclusively for its intended purpose in server and network cabinets.
- Do not modify the shelf; this may void the warranty.
- Install and use the shelf only in dry, indoor environments.
- Avoid using the shelf near heat sources or in direct sunlight.
- Do not exceed the specified load capacity of the shelf.
- Protect the shelf from moisture, dirt, and excessive loads.
- Securely mount the shelf according to the installation instructions to prevent damage or injury.
- Keep children and pets away from the product and packaging materials.

4. Product Compliance and Disposal

4.1 Manufacturer

DSIT B.V.
Schuilenburglaan 5a
7604 BJ Almelo
The Netherlands
WEEE Reg-Nr. 67590521
Deutschland: LUCID-Registrierungsnummer: DE3692773190433

24.2 CE Conformity

With the CE marking, DSIT B.V. declares that the product complies with the essential requirements and directives of European regulations. The complete EU Declaration of Conformity is available on our website at <https://www.dsit.nl>.

4.3 Disposal and Recycling

The European directive relevant to the disposal of shelves is Directive 2008/98/EC on waste. This directive establishes the legal framework for waste management in the European Union and highlights the importance of proper waste handling to protect the environment and human health.

The directive sets out a waste hierarchy, prioritizing prevention, recycling, and other beneficial uses over disposal. Producers and waste holders must ensure that waste is properly managed and recycled without causing adverse environmental impacts.

25. Legal Notice

25.1 Manufacturer

DSIT B.V. accepts no liability or warranty for damages resulting from improper installation, assembly, or misuse of the product, or failure to follow the instructions for use and/or safety guidelines.
